

Hello, my name is Deborah Hanna and I am asking for your support for the position of AFGE Executive Vice President.

I have been helping officers with management issues since my start in TSA in 2007, before we even had an official union. I became Women's Coordinator in 2008-2017 when I then became President of our Local, 2017-2020.

I have had extensive training in all Union issues including but not limited to Workmans Comp, EEO, Women's issues, among others. and won, approximately 95% of my cases including removal. I have been a member of the National Council 100 Communications Committee for 4 years and had input into our current contract.

While I have not been involved as much as I would have liked, I have continued to help officers with issues, and have been able to take care of things before they hit paper.

What I am looking for this next 3 years is FULL transparency in every single detail of the local, fully trained stewards, and an end to the condescending, sometimes rude way our members are talked to. I want to bring us together in unity so that no one is afraid of retribution and every officer is comfortable coming to the union with an issue.

I have built many relationships over the years with our upper management , both inside of Mco and our other 556 airports. I have relationships with HR and our FSD which puts me in a unique position of just having to place a call.

If you support me in my endeavor to be the next Executive VP, know that you will always have a person whom you can call 24/7 that will listen and treat you with dignity and respect.

Thank you, Deborah Hanna
